**W. E. COOPER**

HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive

**Carriage Factory,**
**Corner of Second and Morrison Streets.**

He respectfully refers to the following

**CARD.**

Having examined the New Patent Shaft Coupling, invented by H. B. Hoagland, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.

It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant, and is convenient, safe and secure.

It is easy to change to this style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

SPECIAL DISPATCHES TO THE OREGONIAN

**EASTERN DATES TO FEBRUARY 3.**

**Congressional.**

WASHINGTON, Feb. 2.—In the House the Committee on Foreign Affairs reported several private bills, which passed; also a resolution asking the President to transmit all correspondence in relation to citizens in French prisons [illegible] and how treated, etc. After a brief discussion the resolution was laid over.

The Speaker announced the appointment of Garfield and [illegible] as Regents of the Smithsonian Institute.

Logan offered a resolution declaring that the people of Cuba, for more than a year, have carried on active hostilities against Spain, have established, and still maintain, a de facto government; now occupy and control a large portion of the island, and instructing the Committee on Foreign Affairs to inquire what reasons, if any exist, why the United States should not recognize the republicans of Cuba as belligerents—adopted.

Paine introduced joint resolution to provide for meteorological observations at military stations and other points of the continent, and for giving notice at northern lakes and sea board, of the approach of storms, adopted.

Ferry offered a resolution of inquiry in regard to special agents of the Treasury Department, amount of mileage paid them, etc., adopted.

Clarke introduced a bill to dispose of Cherokee lands in Kansas, to actual settlers, also to amend an act granting lands in Kansas. He also presented a concurrent resolution of the Kansas Legislature in favor of the removal of the Capitol to Leavenworth, and instructing their Senators and representatives to vote against further appropriations for public buildings at Washington.

Banks asked the Chairman of the Committee on Appropriations whether that committee had considered any measures for the relief of the large number of mechanics discharged from the navy yards in various parts of the country. Davis replied that a bill for that purpose was now before the committee and probably would be reported to-morrow.

The House then went into Committee of the Whole and took up the Senate bill appropriating $50,000 for the poor of the District of Columbia, and allowing 10,000 suits of condemned army clothing to be distributed. The bill gave rise to considerable discussion, and several amendments were offered. None were adopted except one for the issue of rations by the War Department. The committee rose and reported the bill to the House which without final action adjourned.

In the Senate Chandler corrected a newspaper statement to the effect that he advocated inflation of the currency. Under no circumstances would he vote to inflate the currency another dollar.

The Senate took up the bill granting lands in aid of the construction of a railroad from Portland to Astoria and McMinnville, Oregon. Thurman moved to commit with instruction to strike out land grants. After some discussion it was laid over.

The currency bill was taken up and the Senate acted on all the amendments. The bill finally passed, 39 to 33. Casserly and Cole voted in the negative. Corbett, Williams, Nye and Stewart voted in the affirmative.

The Census bill was taken up and laid over to to come up in order.

A bill to authorize the transfer of certain unappropriated funds in the Navy Department to bureaus of construction and steam engineering, was taken up. Trumbull opposed the transfer and the bill was then laid aside.

Howe, on leave, addressed the Senate in support of his bill more effectually to preserve neutrality relations. The bill repeals certain sections of the present law, which forbids the hiring of an American citizen to enlist in a foreign army, or going abroad for that purpose, and prohibits American shipbuilders being concerned in the building or fitting out of vessels designed to cruise against foreign powers with whom we are at peace.

Conkling attempted to call up the Census bill, but the Senate adjourned.

**Washington News in General**

### Democratic Political Outcroppings

hear that it is already pretty certain he Democracy will not re nominate the Chadband Smith for Congress, though iends of a certain aspirant for the Sena- p will do what they can to effect it, fear hat, otherwise Mr Smith will be left to become a dangerous competitor for senatorial robes The "boys" want a this year, and they are talking about , the "young lion of Linn" The prop- on to nominate a candidate for United s Senator at the Democratic State Con ion, comes from the "boys," and it is rstood to be a maneuver to get Smith of the way of the Congressional nomina , by offering him the Senatorial bait It also answer the purpose of shutting the r against ex-Senator Nesmith, who has er been forgiven for voting several times upport of the measures of President Lin- n's administration Should the candida- or Governor not fall upon either Grover John F. Miller, and the Congressional ination should not be given to Mr Smith, latter gentleman will certainly be promis- the Democratic support for United States ator notwithstanding any nomination by Convention, because it will be deemed [illegible] to retain the good will of the im- nse corporation of which all three are althy members, and which is expected to ne out with a large per cent of that *sixty usand dollars* to be used "to carry the elec- n" in June. If the "boys" take the reins the convention, as they *are likely to do,* re will be a lively smashing of slates as y are now put up by the gentleman of the earlier days of the Republic," and the "re- [illegible] statesman" of the party.

The "boys" not only want the Congress- but they want the State Printer, and in race for this prize there will be a spirited [illegible] between the Albany *Democrat* and Portland *Herald*. The former is the [illegible] organ notwithstanding the juvenile [illegible]s of the latter, and is no doubt in the [illegible] of the ring, while the latter is frisking [illegible] on the outside, making a great noise [illegible] but securing only doubtful atten- [illegible] The failure of the *Herald* to adopt the [illegible] suggestion about nominating a [illegible]nator at the Convention was a stupid mis- take, and proof ample that the "boys'" ring did not contain the "juvenile" corps of the *Herald*. The letters which it is said the *Her- ald* people are sending over the country ask- ing to have the delegates "put up" for that [illegible] are too late. If Helm be not a [illegible]didate for Congress, Ballinger will be the candidate for State Printer, sure; and if Helm be the candidate, Ballinger will have four chances to one for any man out of Albany. For these two positions, the "boys" will have the nominations for Sena- tor and the other State officers to trade upon, and considering that the Democracy count [illegible] on the election, it must be acknowledged that the capital held is a large one. We are sorry to say anything to dampen the red-hot ardor of the *Herald*, but Ballinger will be the candidate as sure as two and two are four, unless he be induced to forego it.

### [illegible] View of the Ship-building Interests

We have at various times published several articles treating of the decline of ship-build- ing in the United States, along with various [illegible] accounting for it and suggestions of [illegible] In most of these, as has been [illegible], the writers have spoken of [illegible] ship-building in comparison with that of England, conveying the impres- sion that while our [illegible] of this class have [illegible] fallen off, the English builders have been and are going ahead with their op- erations on the accustomed scale of magni- tude. This [illegible], however, seems to be founded on an entire mistake as to facts. A correspondent of the Boston *Advertiser*, who appears to be thoroughly conversant with the [illegible], says:

> In 1854 I passed down the Thames from London Bridge to Woolwich, a distance of say eight [illegible] and counted twenty-[illegible] large steamers and [illegible] In Oct., 1869 [illegible] months ago—I went [illegible] the same route. The shipyards for the [illegible] were deserted. *Not one vessel on the* [illegible]

[illegible] of nearly all the writers on [illegible] has been in substance that, our ship-building has fallen off on account of the tariff on iron; that American builders could not pay the tariff duty and compete with the [illegible] builders; that if the duty were taken off they could thus compete, and American ship-building would again revive. The aboli- tion of the tariff duty would help to the extent of the difference it would make in the price of English iron used in the United States, but that difference would not be sufficient to [illegible] ship yards going again, as may be seen by a further examination of this corres- pondent's statements. He says, in substance, that the ship-yards of the Thames were idle [illegible] they could not compete with those of the Clyde and Tyne, and yet the Thames [illegible] have no duty to pay. The Tyne [illegible] can build for ten dollars per ton [illegible] than can the Thames companies, be- [illegible] it has in *its immense ship-yards a shaft* [illegible] *the coal used is taken from the earth and* [illegible] *from which is obtained the iron ore used* With these advantages, which are not found [illegible] in the world, the company is able to underbid for and to monopolize the greater part of the ship-building of even England, to say nothing of foreign countries. A com- mon sense question is, would the abolition of the tariff duty enable American builders to compete with the Tyne Co? No ship builder in the world can do it except with equal advantages. The fault is not in leg- islation; nor is the remedy

### A Smart News Agent

A Washington dispatch published this morning, begins - "The bill reported by Mr Trumbull, from the Judiciary Committee, yesterday, extends the entire provisions of the civil rights act to Chinese, and its pas- sage will work a revolution in Californi[illegible]." The bill is then given in full It [illegible] exactly to a re-enactment of the civil [illegible] without mentioning Chinese or any [illegible]ple except "Indians not taxed," [illegible] to affirm nothing which is not [illegible] to prevent States from levy- [illegible] taxes and imposing special [illegible] It gives the Chinese nothing [illegible] already guaranteed to them, and takes nothing away which they now en- [illegible] it undertakes to say that the States [illegible] do no less nor no more It will prevent [illegible] State from levying special taxes upon [illegible]; they could not do it under the [illegible] of the United States It will [illegible] from levying special taxes upon [illegible] people from which other classes [illegible] could not do this by any sanc- [illegible] And it prohibits the States from imposing punishments and penalties upon one class to which others are not liable, by reason of class or color the Constitution would prohibit this also The civil rights act, in effect does the same thing The bill introduced by Mr Trumbull attempts nothing new but to clearly define what is law, to make it so plain that no man can mistake it And yet this news monger who fires up the dispatches, seems to realize for the first time that the States cannot do what soever they will, and hence concludes that the bill in question is about to "work a revo- lution in California affairs" He has made the astonishing discovery that civil rights are extended to Chinese He is almost as smart as some of the Democratic editors in Oregon

### The 15th Amendment

In view of the probable early ratification of the 15th amendment, and the issuance of a proclamation declaring it to be a part of the Constitution of the United States we have been requested to republish the text The resolu tion submitting the amendment passed Con gress February 28, 1869 The resolution and amendment are as follows

*Resolved* by the Senate and House of Repre sentatives of the United States of America in Congress assembled (two thirds of both houses concurring) That the following article be pro posed to the Legislatures of the several States as an amendment to the Constitution of the United States, which, when ratified by three fourths of said Legislatures shall be valid as a part of the Constitution, namely

ARTICLE XV

SECTION 1 The right of citizens of the United States to vote shall not be denied or abridged by the United States, nor by any State, on account of race, color or previous condition of servitude

SECTION 2 The Congress shall have power to enforce this article by appropriate legislation

### Editorial Notes

An exchange says "Governor Padelford of Rhode Island, told the Legislature all he wanted to in a message not two columns long The Governor of Maryland found twelve col- umns necessary, and the Governor of Penn- sylvania needed even more than that" But then it must be remembered that Maryland is more than six times as large as Rhode Island, and Pennsylvania is "even more than that" The wonder is that Gov Padelford should find in so small a State matter for a [illegible] column message.

The question of woman's suffrage seems to be under serious agitation in Colorado, and it is not unlikely that the Legislature now in session may do something for the bet- ter halves of creation *a la mode* Wyoming. The *Mountain News*, at least, seems greatly agitated with fear lest such action may be taken, and is arguing gravely that such a change in the basis of suffrage can be consti- tutionally effected by an amendment of the organic law. The female suffragists have a sprightly advocate in the lady editor of the *Tribune*, who seems able to give the exclusive- ly male suffragists a vast deal of uneasiness.

The Boise *Chronicle* is greatly distressed with the fear that Senator Williams will be re- elected from Oregon. It bases its objections upon legislation which, it charges, was pro- cured by Senator Williams, inimical to Idaho. We guess the legislation referred to must be the law providing for elections in the States and Territories upon the same day, by which the thugs of Idaho are prevented from exer- cising their "time-honored" privilege of voting for Congressmen in both jurisdictions. The Idaho Democrats must hereafter let us alone or else endanger the success of their own candidate. We are not surprised at their disgust at being prevented from voting early and often.

A statement has been going the rounds of the Democratic press to the effect that Mr. Sidney Webster, of New York city, had made enormous sums of money in prosecuting Spanish claims before his father-in-law the Secretary of State. In relation to this slander, the New York *Times* says "The Spanish Minister testifies that Mr. Sidney Webster has received only ordinary fees for the performance of arduous legal duties to- tally unconnected with Cuba; and it further appears that the said fees amounted to no more than $8,870 for services rendered over a period *of three years* past. Judge Pierre- pont declares that he is familiar with the work done by Mr. Webster, [illegible] $10,000 would have been a very moderate fee in re- turn for it. The accusation is thus conclus- ively shown to be a base and malicious inven- tion from beginning to end.

It will be occasion for rejoicing to learn that the financial policy of this administra- tion is rapidly reducing the gold gamblers of New York city to the necessity of emigrating or going into other lines of business to gain their bread. A New York exchange says that there is a very perceptible diminution in the volume of speculation, and those versed in Wall and Broad street matters predict that by another year fully half of those who now make a livelihood in Wall and Broad streets will be compelled to seek other locations or starve. Secretary Boutwell's sales have well- nigh ruined the business of the Gold Board Speculators do not dare to undertake the for- mation of either bull or bear rings, for fear that the Secretary may at any moment frus- trate all their plans, as he did those of the Gould-Fiske-Corbin Butterfield ring Hence there is no chance for speculation in gold, and gold brokers receive but very few orders from speculators

The Rocky Mountain *News* says the Re publicans of Colorado, when they surren dered the Legislature to the Democrats, left $27,000 in the Treasury Of this amount, the Democrats have already taken $8 000 for increase of salaries to the Democratic officers of the penitentiary $6 000 for printing the laws in Spanish, (for which there is about as much need as to have them printed in Greek) and $3 000 for the first man who bores a thousand feet of an artesian well At this rate the Democrats will very soon bore through the bottom of the treasury, and a long way into a debt for the payment of which, the Republicans will have to provide in a year or two when the Democrats shall have been deposed for extravagance and steal ing As in California, New York and where ever else the Democrats have got into power the Democrats of Colorado have gone straightway into the old Democratic ways of gobbling the people's money

HIS TRIUMPHAL TOUR THROUGH MEXICO

[From the New York Times Jan [illegible]]

Two gentlemen who have accompanied Hon William H Seward, ex Secretary of State, during his tour in Mexico arrived in this city yesterday and from them we have obtained the particulars of Mr Seward's journey through our sister Republic and the magnificent ovations that were every where tendered him

The Government of Mexico represented by President Juarez were anxious to honor the man who had done so much while he was Secretary of State of the United States to uphold the Republic of Mexico when its life was menaced by foreign intervention and through whose instrumentality it [illegible] at last crowned her efforts for independence A prominent Mexican Mr [illegible] was deputed by President Juarez to meet Mr Seward and party which consisted of Mr Frederick Seward and wife and a few personal friends on arrival at the Mexican port on the Pacific coast and conduct the distinguished guests through the country to the Atlantic or Gulf seaboard.

HIS ARRIVAL

Mr Seward and party left San Francisco by steamer and landed at Manzanillo which is a small town of little importance on the Pacific coast At this point an escort of about 150 soldiers joined the party, and, accompanied by Mr [illegible] continued with them until their approach to the city of Mexico The reception at Manzanillo was enthusiastic, the inhabitants turning out *en masse* to welcome the "great American" From here the party proceeded to Colima, where the ovation was equally imposing, and thence to Guadalajara where the demonstration of wel come was magnificent A visit was thence paid to the silver mines of Guanajuato, which are very extensive and rich Thence the party went to Queretaro, which ever will be memorable as the spot where Maximilian met his death Mr Sew ard spent some time at this historical place, and then proceeded by slow stages onward to the

MR SEWARD'S FUTURE MOVEMENTS

Our informants left Puebla on the 23d, and Mr Seward and party then intended to remain until the 5th of January when he would embark for Havana If he felt satisfied to remain there he would do so for a week or so but would probably not sojourn there long as he desired to visit San Domingo and Central America before returning home His health was excellent, and he bears the fatigue of his journey remarkably well

Our informants state that the reception given Mr Seward throughout Mexico was the grandest that had ever been given to any foreigner, and everywhere he was regarded with the utmost respect and veneration

GERMAN IMMIGRANTS

The *Tribune* states that Hon E S Salomon, lately appointed Governor of this Territory, has induced some 200 Germans to emigrate here who had intended permanently to settle in some other quarter This is a move in the right direction and speaks volumes of praise for our new Gov ernor who so early identifies himself with the interests of our Territory Such actions as this will meet with due approbation of all and will insure Governor Salomon a hearty welcome to our shores

VARIOUS MATTERS AT WALLA WALLA

[From the Walla Walla Union Jan 29]

On Saturday next there will be a meeting of the stockholders of the W T A M & A F So ciety at Waitsburg and it is to be hoped that there will be a full attendance It is also de sirable that there be a general meeting of far mers and all others interested in the prosperity of our country, at the same time and place.

Saddles seem to be in demand of late—second hand ones being preferred We come to this con clusion from the fact that within the last week there has been two saddles stolen from the backs of horses standing hitched in town after dark

The Good Templars of Waitsburg will dedicate their new hall on Monday, Feb 7th They will give a grand supper and expect to have a good time

The new grist mill has commenced to grind, and its owners and all those who have examined it, seem sanguine that it is a first class mill

Business has been rather dull for a few days past, owing, in a great degree, to the bad condi tion of the roads.

### OREGON

Mr R Cox, of Salem, has been appointed Gau ger for the Revenue Collection District of Oregon

The latest news from Goose Lake reports the snow three inches deep but all kinds of stock doing well

A revival meeting has been held at Wilbur, Douglas county, during which there were several accessions to the church

The Salem Musical Union are preparing to give another entertainment, on which occasion they will perform "Esther, the Beautiful Queen"

The Salem *Press* says the people of that place are enjoying all sorts of wild game The force pump invented by Mr Ashcroft, of Butteville, has been tried in Salem and found to work admi rably

An Empire City (Coos Bay) correspondent of the *Ensign* says "Gilbert Hall, ex County Judge of this county, has graded a railroad across the Isthmus which separates the waters of the Co quille river and Coos Bay He intends to com mence the work of laying the track in the coming spring"

The Articles of Incorporation of the Douglas County Agricultural Society were executed on the 22d inst., and have been filed according to law The following named gentlemen are incorporators Jesse N. Barker, Thomas Smith, David Bushey and Fendel Sutherlin The capital stock of the Society is $2,500, with the privilege of increasing the same to $5,000 The capital stock embraces one hundred shares, $25 each. The principal office or place of business of the Society will be Rose burg. So says the *Ensign*

"Two young men were recently rowing on the Mersey, near Liverpool, one of them having his favorite dog with him, when the boat upset The owner of the dog, named Bellis, was a poor swim mer, the other, Jones, was well skilled in the art of natation, and did his utmost to save his friend —a matter of no great difficulty, since the shore was not far off But what appears to have been an unexpected excess of [illegible] on the part of the dog, frustrated all his efforts. Mounting on [illegible] shoulders, the animal bit Jones sav agely whenever he took hold of the drowning man, the strong swimmer was at length compelled to desist from his efforts, and poor Bellis sank, under the double burden of his dog's weight and of its misdirected zeal

Those of our readers who have an unwise fond ness for Western pork, may be interested to learn ing that trichinosis may be prevented by thorough cooking. Strange as it may seem, if the meat is rare, poisoning cases will be, and *vice versa*.

MULTNOMAH No. 2 — The annual election of o[illegible] for Multnomah Engine Company No [illegible] last evening was made the occasion for one [illegible] the most pleasant affairs we have witnessed for [illegible] long time The strictly business part of the mee[illegible] being closed Mr Bachman being in the chai[illegible] Mr Joseph Buchtel took the floor and after re[illegible] ing to the success with which the Company ha[illegible] every difficulty in the early days of its organ[illegible] as well as the many contests with the fier[illegible] in which the invincible efforts of the [illegible] pany had proven it one of the safeguards o[illegible] city said that of those who first organized th[illegible] [illegible] but two names remain on the roll [illegible] bers: [illegible] Goodwin and A C Ripley [illegible] [illegible] who was not present, has served the [illegible] pany as hoseman foreman, member of the [illegible] of Delegates and Treasurer, and in these [illegible] capacities had always given the ut[illegible] satisfaction to every member. The Com[illegible] felt that for his earnest labors in its behalf [illegible] Mr Goodwin some testimonial of its high [illegible] of those services, therefore on beha[illegible] of the members Mr Buchtel presented to the President for Mr Goodwin a beautiful silver to[illegible] box, inlaid and engraved "B. F. Goodwin, [illegible] from No 2," which the President [illegible] half of the donee in a few very appropriate re[illegible] marks.

The President then called Mr Buchtel to th[illegible] chair Mr Bachman made a neat speech, at the close of which, on behalf of the Company, he presented to H L Norden Esq an elegant gold pen and holder Mr Norden being [illegible], the President Mr Buchtel acknowledged the [illegible] of the present on his behalf After this Mr Bachman resumed the chair, and Mr Trevet[illegible] arose and said in substance: It is said that the oftener we celebrate an occasion the more inter[illegible] ested we become, and the more earnestly we feel as we [illegible] its return. Yes[illegible] [illegible] to hail the [illegible] anniversary of Freedom's birth on the American continent, the more fondly we cling to that Freedom, and the braver we feel in her defense [illegible] we gather here year after year in these happy reunions as friends and comrades, the firmer we be[illegible] [illegible] attached to each other as common [illegible] of an organization whose objects are the [illegible] of the lives and property of the community. It is well that we cherish these recollections, tha[illegible] we let not these pleasing memories die out. As [illegible] company, the members had all nobly filled the [illegible] of their duty. When [illegible] the blazing of buildings and the [illegible] tion of property, none have been found to [illegible] our comrades have been [illegible] from duty [illegible] we have paid to them the last sad rites and buried them out of our sight. [illegible] who have ever been among the foremost to labor for the company, and to promote its efficiency was the foreman elect, who had again and again during a decade, led the [illegible] onward when danger [illegible] and duty called, and [illegible] token of the high appreciation with which the [illegible] regarded these efforts, the [illegible] Mr. Hallock [illegible] beautiful gold [illegible] Mr. Hallock was taken by surprise entirely, but not so [illegible] went his firm replying in a very happy manner.

We would have [illegible] to give the [illegible] as they were made, but as our re[illegible] are made up from memory, we are [illegible] to [illegible] Suffice it to say however, that the [illegible] and good feeling, which [illegible] Multnomah, No. 2, is as [illegible] individually as [illegible] After the [illegible] here and [illegible] partook of a [illegible] For [illegible] ality [illegible] of Portland, and no [illegible] than No. 2.

OREGON FLOUR.—This article is now receivin[illegible] much more attention in other markets than form[illegible] erly, and California must begin to allow th[illegible] State to have its share of the credit which [illegible] [illegible] by the merit of the products of the Paci[illegible] [illegible] So long has our sister State claimed tha[illegible] she was the [illegible] that everything which we[illegible] from here, was branded "California" and we [illegible] always merged or ignored when the claims of th[illegible] Pacific coast were considered. However our d[illegible] rect shipments within the past year or so hav[illegible] tended, in a great measure, to dispel this del[illegible] sion, and Oregon products are beginning to co[illegible] into notice in the various commercial centers [illegible] the world. We find Oregon flour quoted in se[illegible] eral of the commercial papers on the Atlan[illegible] coast, and it universally commands a figure [illegible] high as any

TAX LEVY.—The several ordinances introduc[illegible] and passed at the meeting of the Common Cou[illegible] cil held on Wednesday evening, levying the [illegible] nual tax fixed the tax as follows. # CITY.

MULTNOMAH NO 2 —The annual election of officers for Multnomah Engine Company No 2 last evening, was made the occasion for one of the most pleasant affairs we have witnessed for a long time The strictly business part of the meeting being closed Mr Bachman being in the chair, Mr Joseph Buchtel took the floor, and after referring to the success with which the Company had met every difficulty in the early days of its organization as well as the many contests with the fiery element, in which the invincible efforts of the Company had proven it one of the safeguards of the city said that of those who first organized the Company but two names remain on the roll as members—B F Goodwin and A C Ripley Mr Goodwin, who was not present, has served the Company as hoseman, foreman, member of the Board of Delegates and Treasurer, and in these several capacities had always given the utmost satisfaction to every member The Company felt that for his earnest labors in its behalf, it owed Mr Goodwin some testimonial of its high appreciation of these services therefore on behalf of the members Mr Buchtel presented to the President for Mr Goodwin a beautiful silver tobacco box in aid and engraved "B F Goodwin from No 2 which the President accepted on behalf of the donee in a few very appropriate remarks

The President then called Mr Buchtel to the chair Mr Bachman made a neat speech at the close of which on behalf of the Company he presented B L Norden Esq an elegant gold pen and holder Mr Norden being absent the President Mr Buchtel, acknowledged the receipt of the present on his behalf After this Mr Bachman resumed the chair, and Mr Trevett arose and said in substance It is said that the oftener we celebrate an occasion the more interested we become, and the more earnestness we feel as we assemble to greet its return year after year as we congregate to hail the returning anniversary of Freedom's birth on the American continent, the more fondly we cling to that Freedom, and the braver we feel in her defence. As we gather here year after year in these happy reunions as friends and comrades, the firmer we be come attached to each other as common members of an organization whose objects are the safety of the lives and property of the community It is well that we cherish these recollections, that we let not these pleasing memories die out As a company, the members had all nobly filled the measure of their duty. When dangers met them in the blazing of buildings and the destruction of property, none have been found to falter, when our comrades have been released from duty on earth, we have paid to them the last sad rites and buried them out of our sight. Among those who have ever been among the formost to labor for the company, and to promote its efficiency, was the foreman elect, who had again and again, during a decade, led the members onward when danger threatened or duty called, and then, as a token of the high appreciation with which the entire membership regarded these efforts, the speaker presented Mr Hallock, foreman, a most beautiful gold headed cane. Mr. Hallock was taken by surprise entirely, but not so as to prevent him from replying in a very happy manner

We would have been pleased to give the several fine speeches as they were made, but as our remarks are made up from memory, we are unable to do so. Suffice it to say however, that the cordiality and good feeling which prevailed showed that Multnomah, No. 2, is as "gentle in manner" individually as she is "efficient in action" collectively. After the several speeches the members and invited guests partook of a bountiful lunch in the engine room. For genuine cordiality commend us to the firemen of Portland, and no company is more so than No 2

OREGON FLOUR —This article is now receiving much more attention in other markets than formerly, and California must begin to allow this State to have its share of the credit which is gained by the merit of the products of the Pacific coast. So long has our sister State claimed that she was the coast, that everything which went from here, was branded California, and we were always merged or ignored when the claims of the Pacific coast were considered However our direct shipments within the past year or so have tended, in a great measure, to dispel this delusion, and Oregon products are beginning to come into notice in the various commercial centers of the world. We find Oregon flour quoted in several of the commercial papers on the Atlantic coast, and it universally commands a figure as high as any.

THE LEVY —The several ordinances introduced and passed at the meeting of the Common Council held on Wednesday evening, levying the annual tax, fixed the tax as follows For defraying the ordinary expenses of the city government, $4 50 on $1 000 for the improvement of streets adjacent to public property and opening repairing and extension of streets, $1 for purchasing ground and the erection of an engine house, $1 60 for erecting street lamps, lighting the same and keeping them in repair $2 40, for the improvement of the navigation of the Wallamet river 60 cts making a total tax of $10 30 on every one thousand dollars worth of taxable property in the city The total revenue raised by this tax will be near $50 000

BUTTER —There is at this time a most decided "bear" in the butter market in this city Prices have gone down like the article itself in hot weather Several dairymen who have hitherto sold their products to the jobbers here have been holding back for a higher price and now they find that the large supplies they have on hand will have to be sold for much less than they have been offered A dairyman yesterday morning offered six hundred pounds at 25 cents to one of our city grocers and it was refused

AT MILWAUKIE —We are requested to announce that Rev J Selwood will lecture at Milwaukie on the subject of temperance to morrow (Saturday) evening

COUNTY COURT —The County Court for Multnomah county, Hon P. A Marquam, Judge, presiding, will convene on next Monday morning at ten o'clock

COLUMBIAN NO 3 —This company elected officers as follows last evening at their annual meeting Thos G Young Foreman W O Bruce 1st Assistant John H Ilton 2d Assistant H Boyd President S C Mills Treasurer Al Zeiber Secretary, members of the Board of Delegates H Boyd Al Zeiber M J Mulligan

After the election the company presented an elegant walking cane to Al Zeiber as a token of their appreciation of his services as a member of the company and a brother fireman. The members and invited guests then spent a few hours in a social dance The occasion was a very pleasant one

AMUSEMENT Owing to the many other meetings held in the city last night the Theater was not so largely attended as heretofore The bill as announced was not slighted and that the performance vastly amused and entertained the audience was clearly manifest In fact the audience would be a mournful sight indeed, which Joe Murphy's eccentricities would not excite to mirth and which Miss Mandeville's singing would not please The programme for Murphy's benefit to night is a good one and we bespeak a full house

WILLAMETTE NO 1 —The annual election of officers last evening in this company resulted in the choice of the following who will doubtless prove highly efficient in their respective positions Foreman, W H Wood 1st Assistant, Howard Northrup 2d Assistant Wm Saunders President P D W Hardenburgh Secretary M M Billos Treasurer A G Walling Members of the Board of Delegates J H Lyon, P D W Hardenburgh Ed F Albright

OFFICERS —The officers of Multnomah Engine Company No 2, elected last night are A H Hallock Foreman A A Williams, 1st Assistant D M Gault 2d Assistant B L Norden President B F Goodwin Treasurer W A H Ibr Secretary Members of the Board of Delegates A B Hallock, B L Norden John Barre Auditing Committee F Campion C Robinson C H Durham

VIGILANCE H & L Co —The following are the officers elected by Vigilance Hook & Ladder at their annual meeting held last night President, Jacob Mayer, Secretary, E Zeltfuchs Foreman Chas F Deitz, 1st Assistant, A Humason, 2d Assistant Charles Stewart Treasurer E D Backenstos, Members of the Board of Delegates Jacob Mayer, Chas T Deitz, E D Backenstos

PROTECTION NO 4 —The annual election of Protection Fire Engine Company No 4, last evening, resulted in the choice of officers as follows Foreman, J P Wilcox, 1st Assistant, A Deilschneider, 2d Assistant, M Zeller, President C H Marvin Secretary C Ball, Treasurer, D Monastes, Members of the Board of Delegates, C Ball, C H Marvin and James Bennett

WALLAMET FREIGHTS —The boats from Oregon City during the week ending last evening brought down 7,192 bushels wheat, 12,160 sks flour, 2,194 bushels oats and 970 boxes apples, besides a large quantity of other produce The wharf of the P T Company is now full, notwithstanding the *Ajax* has taken nearly a full cargo from the freight stowed there.

SCHOOL EXAMINATION.—We were unable to be present at the examination at the Academy yesterday, but learn that the afternoon was spent in examining classes of pupils, who appeared thoroughly posted in the subjects under investigation, and exhibited a great degree of care on the part of teachers. The examination will be continued to day.

FROM SAN FRANCISCO —A private telegram from H. W. Scott, Esq, at San Francisco, yesterday, informs us that he expects to reach Portland on the next steamer, which will leave for this place on Tuesday, the 8th inst.

BENEFIT —Joe Murphy will take a benefit at the Theatre this evening, and we greatly mistake as to the amount of popularity he has already gained in Portland, if the house is not crowded.

LOADING.—The *Ajax* was still receiving freight yesterday. She will sail to morrow at 4 P M

DISCHARGED.—The freight of the *Almy* is all discharged and she now awaits a cargo.

DR. J. J. M'BRIDE,

TELLS YOUR DISEASE WITHOUT ASKING ANY QUESTIONS!

A CARD.

San Francisco Oct 16 1869

DR McBRIDE—My Dear Sir For the last six or seven years I have been afflicted with rheumatic pains, from my knees down, embracing all the joints of ankle and toes These pains have come upon me periodically every year about this season of the year My knees and ankles, and toe joints, and my wrists and finger joints would swell and leave me in the most agonizing pain, known only to those who have suffered from this dread malady These pains would continue for a period of from three to four months every year and they have been regular, unfailing annual visitors I have been accustomed to apply for relief to the best citizens of San Francisco and have not failed to use all the popular remedies known to the public, I would sometimes receive temporary relief, after long continued application but it would never fail to return in a few days with increased severity

About two weeks ago, while my pains were upon me, I saw you at the corner of one of our streets, and heard what you said about your "King of Pain." I confess that I listened to you with very little faith. Indeed, I may say that I did not believe your statements. "Still," thought I, "it's only a dollar, and I'll patronize the 'humbug' one dollar's worth." I bought a bottle and tried it first on my knee, which was terribly swollen and from which I suffered very severely The second night I tried it again, and my dear Doctor, you can judge of my surprise ecstacy and delight altogether when I found on rising the second morning that my pains were entirely gone and the swelling entirely disappeared My knee joints were as supple as when I was young I actually danced with delight, much to the amusement of my friends, who had been in the habit of regarding me as a decrepid old rheumatic It has now been two weeks, and I have not felt the least symptom of return I believe I am cured, and I feel so grateful to you that I offer you this statement, verified by my oath, to be used by you in whatever way you may think proper, and I feel it a duty to let others similarly afflicted know where they can find relief

### Decadence of Massachusetts.

NS VILLAGES, CHURCHES AND SCHOOL DIS-TRICTS FALLING OFF.

he startling decrease in population among country towns of the State is noticed in Palmer *Journal*, the editor giving his ob-ations of thousands of miles of travel ng the hill and mountain districts. y mile shows indications of decay in the k of once elegant mansions, the scraggy ards choked with underbrush, and the pidated school houses, long deserted. kly tenanted but sadly neglected burial es show that once a numerous population lt here, where now for long distances one s no human habitation. The population slid into the valleys, taking the wealth it, and now farms can be bought for less n the buildings are worth. Rev. Dr. Gale, see, adds his testimony regarding the de-ence of Berkshire county. Four towns contain half the population and half the ith, and of the remaining twenty-seven ns, fourteen have less than 1,000 inhabi-s. The churches show a falling off in the ber of settled pastors, and an increase in bership of only thirty-four within the forty years. In a number of places Sun-services have been entirely dispensed . The Manchester *Union* endorses the ements, and asserts that the same is true ther parts of the State. It mentions in-ces in which the whole school districts e been depopulated within the last four s, farm buildings removed to the villages the farms left to the growth of forest s. The cause of this sad change is ibed by the *Union*, to the attractions of cheap lands of the West, and to the later oralizing effects of the war. As both of e influences are still in operation, there ns to nothing to preserve Massachusetts n becoming a State of deserted villages." *Pittsburg Commercial.*

## FINANCE AND COMMERCE.

PORTLAND, Feb. 3, 1870.

Latest New York gold quotations 120⅝.

Legal Tender rates in San Francisco 82½ buying and 83½ selling.

Portland Legal Tender rates, 82½ buying, 83 selling.

In Finance more ease is exhibited than for some time past, and considerable prejudice is arising against paying the high rates of interest which have ruled for several months. A lower rate would doubtless increase the demand and tend to a revival of business activity. The resumption of specie payment by the Government at an early day is looked for as something which will tend very decidedly to diminish the finances of the country to a great extent. That we are approaching that period is clearly demonstrated by the events transpiring within the past few months. Our national resources are being developed with surprising rapidity. We are growing in wealth and prosperity. Our population is fast increasing and our obligations steadily diminishing. The public revenues already much exceed the public disbursements, and every passing year will augment the one while it decreases the extent of our national obligations. When specie and currency are at par, the question of resumption will be practically settled, and business will be done on a stable, permanent, and satisfactory basis. At present we may easily account for the stringency of the money market on this coast by the statistics which were made up from various sources at the end of the year, and which show a great falling off in the mining products here and an accumulation of coin in the commercial emporiums of the East, as well as the large quantity by which our purchases exceeded our importations.

The high freights ruling on this coast have drawn a large amount of tonnage to this coast, and, as a consequence, the cost of transportation has been slowly but steadily declining. There are now on the coast more vessels awaiting cargoes than at the same period for years past, and did producers see fit to act in harmony with the indications of what seems to be the true commercial policy, the status of business might be changed for the better. The need of the hour is the fact of taking advantage of the facilities for throwing our products upon the market at the proper time. That such a course is not pursued is this season is very observable, and its result will be to the loss of producers themselves. Oregon products have secured a good reputation in all the markets where they have been introduced, and by carefulness in the preparation of our exports for markets will sustain that reputation, as it is well established that no country will more surely produce crops of a good or first-class quality. An inclination, which is sometimes shown, to keep the deficits which may exist in a commodity in the dark, aside from its tinge of dishonesty, always reflects on the party who seeks thus to avoid the light and ultimately redounds to his loss.

At this date there seems to be rather more dullness prevailing in the wheat markets of Europe and the Eastern States. This is accounted for by the promising nature of the circumstances affecting the crop of 1870, and the fact that the supply of the past year has been earlier put in the market than usual. Prices here are inclined to shade off a very little, though a fair export demand is still felt. The ruling rates are 60 to 65 cents for Red, and 70 to 75 for good White. Choice lots might find sale at 75 cents.

Flour, following the figures for Wheat, is scarcely so active. It is established that Flour is not so remunerative for exportation as Wheat, and the bulk of our grain surplus crop will hereafter be sent abroad in the raw. The best of our extra is quoted at $5 00, while good country brands and superfine is in good supply at $4 00 @$4 50. The returns from shipments made from this coast to China indicate a growing demand in that quarter, and to secure permanently the trade of that vast market would open up an unbounded mart for the surplus product of this coast for all coming time.

Oats are steady, and so have been during the entire period under review, the receipts being only sufficient to supply the local demand. The producers have been unusually and unwarrantably slow in putting Oats into the market, and, like some other products, Oats may be down flat as to price, and our granaries full. Forty cents per bushel is a living figure, and we fear some of those now held for better rates will bring less at the close.

Barley is not active and the breweries seem indisposed to stock up at the figures demanded by the holders. The amount on hand is limited to immediate wants.

Bacon is steady and the large receipts have not seemed to affect rates, which are good. An improvement in quality over that of former years is noted, as also is the manner of curing. Our quotations give the range of the market. The quantity of meats shipped by merchants here, so far this year, have been small, and warehouses are in many instances found with large stocks on hand. Mess pork finds quicker sale, and the demand is undiminished. Fresh meats are unchanged.

Butter is much lower, and the prospect for those dairymen who have persistently held back for 40 or 50 cents per pound, when they could have readily commanded 28 or 30, is now dull indeed. Had the dairymen put their butter in the market at the fair rates ruling some time ago, it would have had the effect to exclude, to a great extent, the Eastern and Isthmus article, and a control of the market would have been secured—a very desirable object indeed. But every indication now is that the stock on hand has been kept back until it cannot be sold, except at a loss to the producer.

Eggs are also declining, caused by increased receipts, fresh being quoted at 20@25 cents per dozen by the lot, and 25@28 cents at retail.

Fruits of all the varieties in season are still abundant, and prices rule low. The receipts of apples have been large, and owing to great dullness in those markets to which Oregon has hitherto sent large supplies, the trade is very inactive.

Groceries are in better supply than a week ago and we remark a still further declension in the prices of sugars. The refineries of the coast have endeavored, with some success, to secure control of the market, and the result has been that rates are approximating the standard prices at the East, much to the satisfaction of the consumers, doubtless, but not so profitable to manufacturers.

Coal oil has receded to a figure commanded before the late rise, and we quote at 60@65 cents per gallon.

In the dry goods line no material change is noted. A fair amount of business is being done by retailers, though a scarcity of orders tends slightly to create dullness with the wholesalers and jobbers.

The following is furnished by telegraph from New York within the last week: Wheat, $1 40@1 45; flour, $6 50@9 50; cotton, 25⅜c; hides, dry, 20@21c; hides, salted, 11@11½; oil, sperm, $1 65@1 85; oil, whale, 80@85c; wool, spring, 30c; wool, pulled, 25@40c; wool, fall clip, 17@20c for burry.

## HIRAM SMITH'S

## Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Harrisburg, Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

| | |
|---|---|
| E. B. MOORE, | NATHANIEL BELL, |
| A. L. WALLACE, | G. R. WARD, |
| Mrs. MONTGOMERY, | JOHN M. HOLLOWAY, |
| W. D. PORTER, | ROB'T RAMSEY, |

And others in that vicinity.

Persons afflicted with the distressing scourge of diseased eyes are advised to give this remedy a fair trial on the NO CURE, NO PAY and NO INJURY plan.

Prepared by **SMITH & ROACH,**

## TO THE UNFORTUNATE.

**NEW REMEDIES, NEW REMEDIES**

**Dr. Gibbon's Dispensary,**

**623 KEARNEY STREET, NEAR COMMERCIAL,** San Francisco. Established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc. Skin Diseases (of years standing) and Ulcerated Legs successfully treated.

**Horrible Diseases.**

How many thousands of persons, both male and female, are there who are suffering out a miserable existence from the effects of secret indulgences, or from virus absorbed into the system! Look at their pallid, emaciated and disfigured faces and their broken-down constitutions, disqualifying them for the happiness of marriage or the enjoyment of life. In this horrid situation thousands suffer until death closes the scene. Let parents, guardians, friends, attend to those who are suffering with any of these horrible-destroying maladies, see that they are cared for and cured before it be too late. Send them immediately to Doctor Gibbon, a physician who has made private diseases his especial study for years, and who is certain to cure the most inveterate cases without mercury or any injurious drugs. It is important to those who are afflicted, or to those who are interested in the welfare of their friends, to be careful of the many pretended doctors who infest all cities, publishing their skill in curing all diseases in a few days, imposing upon the public by using the names of eminent physicians from Europe and other places. Be therefore careful and make strict inquiry, or you may fall into the hands of those a aristany.

**Seminal Weakness.**

Seminal emissions, the consequence of self-abuse. This solitary vice, or depraved sexual indulgence, is practised by the youth of both sexes to an almost unlimited extent, producing, with unerring certainty, the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Sallow countenance, dark spots under the eyes, pain in the head, ringing in the ears, noise like the rustling of leaves and rattling of chariots, uneasiness about the loins, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, hectic flushes, pimples and various eruptions about the face, furred tongue, feted breath, coughs, consumption, night sweats, monomania and frequent insanity. If relief be not obtained, should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of affecting a quick and radical cure. Dr. G. will give One Hundred Dollars to any person who will prove satisfactorily to him that he was cured of this complaint by either of the San Francisco quacks.

**MARRIED MEN,**

Or those who contemplate marriage, who are suffering under any of these fearful maladies, should not forget the sacred responsibility resting upon them nor delay obtain immediate relief.

DOCTOR GIBBON is responsible, and will give to each patient a written instrument, binding himself to effect a radical and permanent cure, or make no charge.

**CURED AT HOME.**

Persons at a distance may be CURED AT HOME, by addressing a letter to Dr. Gibbon, stating case, symptoms, length of time the disease has continued, and have medicines promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain directions for use, for Ten Dollars, sent in registered letter or through Wells, Fargo & Co.

**Caution to the Unfortunate.**

Beware of the San Francisco quacks and pretenders who, with bogus sworn-to certificates, dupe the unwary. Some of the self-styled doctors, whose names are to be found in the daily and weekly newspapers of San Francisco and other places, are tradesmen, and became too lazy to work at their trades. Some are tinsmiths, shoemakers, newspaper carriers, intelligence office keepers etc. Look over the San Francisco Directory, and you will not find their Medical Institutes in it, but you will find their former occupations in it. Look at the Directory for 1862 and 1863. The only way to avoid imposition is to make enquiry—it will cost you nothing, and may save you many regrets; for, as advertising physicians, in eight cases out of ten, are bogus, there is no safety in trusting any of them until you know who and what they are. Dr. Gibbon does not deceive people by exhibiting bogus titles, certificates, pretended patient's letters, etc. Dr. Gibbon will satisfy persons who may call at his office of his ability to treat diseases that he proposes to cure.

Address DR. J. F. GIBBON, 623 Kearney street, corner Commercial, (Private Entrance on Commercial) San Francisco. Post Office Box 258.

REMEMBER TO PUT BOX 258 ON THE LETTER. Consultations FREE.
